Guild of the Holy Cross

Epic Film "Glastonbury: Isle of Light"

The Welsh and the Frisians

Guild of the Holy Cross

This fraternity of inventors and builders is a resurrection of a religious institution of our forefathers which empowered Crusaders against all odds, who successfully repelled the Islamic conquerors in the West.

Unlike conventional guilds that are for only one type of trade, the “Guild of the Holy Cross” is for “seeking first His kingdom” via many types of trades.

Reverend Stephen Michael has been given access to unheard of technologies, and has joined with several inventors over the years. This institution has been re established as a duty to Christian principles and promoting Christian peace. Stephen Michael has even more so found it a duty in upholding family inheritance even though the many chapels and properties his ancestors gave to this fraternity were stolen and the order suppressed by the English Kings Henry VIII and Edward VI.

Some of our projects include cutting edge private and patented inventions in various infrastructures with Multi-Billion dollar cost savings to major companies in transportation and sustainable living. We even reach into fields such as mining where there are many opportunities for the right partners.

Many of the modern guild’s research & development projects await proper funding and promise a high return on investment.

Please get in touch with us if you have a desire in building the Kingdom of God on the earth as it is in heaven, as we’re commanded to seek first.

Mat 24:14 “And this gospel of the kingdom shall be preached in all the world for a witness unto all nations; and then shall the end come.”

At the time of its destruction, the original guild employed over 2,000 workers. With modern capability we have a vision to build all around the world with the conservative uncompromising churches that will be kept in the promise of peace and safety from the great hours of God’s punishments during the great tribulation.

Epic Film Upcoming: “Glastonbury: Isle of Light”

There is plenty of great pre-production news on this most epic tale of the struggles of Joseph of Arimathea, and Prince Caractacus overcoming their enemies and preserving Christianity from Palestine, Rome, France, and to the final refuge land of Great Britain where the first above ground Christian church was founded in the first century.

Several major Hollywood stars and talent from the well known films, the Lord of the Rings, Apocalypto, King Arthur, Chronicles of Narnia, Star Wars (from all episodes), King Kong, the Legend of Zoro, etc etc, have all officially attached themselves to **production team** of this film.

What I gather from <http://glastonburyfilm.com> I expect you shall hear of this film very soon as their P&A campaign sounds near launch. Here are some of the quotes and reviews:

QUOTES AND REVIEWS

"In this Script the visual arena of ancient Jerusalem, France, and Britain will have a grand effect on screen. An original and engaging chronicle and a very promising idea and concept."

-Chris Morley, *Script Analyst-Jerry Bruckheimer Films*

"Certainly wets the appetite... a milieu and an environment that is most intriguing."

-Michael Donaldson, *International Documentary Association, President*

"An AMAZING script! I would be honored to be a part of this project."

-John Rhys-Davies, *Actor*

"The main character, Caractacus, has great internal as well as external battles, and that's the best part! There's an abundance of rich material to be found here, indeed this is a sweeping epic. The words spoken by all the characters create a certain kind of poetry."

-Baseline StudioSystems

"I think Glastonbury is a very praiseworthy production, and if I might add very professionally created".

-Richard Bray, *Cinematographer, BBC*

"The script does well to show how Caractacus gradually finds his faith, great internal conflict."

-Oxygen Network

"I would LOVE to work on Glastonbury! This is really a sweeping and mystical historical epic."

-Kent Sparling, *Skywalker Sound, Lucas Film Ltd.*

"I really liked the script and want to work on this. I think it has the bones of a great production and I really enjoyed reading it."

-John Howe, *Conceptual Designer, Lord of the Rings*

"You were not being modest as to the breathe and sweep of the story. It really was a pleasure to read which is often not the case!"

-Robin Gurland, *Star Wars Casting Director*

"The fact that one of Caractacus' brother kills their uncle and accepts Roman rule is amazing in terms of its stakes, not only for their family but also for their whole country. The stakes don't get much higher than that. Stakes is one of the key elements in any script but in a historical epic, they are super paramount. The stakes are so high for everyone in this script"

The Welsh and the Frisians

Not much has been written on perhaps some of the greatest cultural influence in the world, which came out of the small land of Frisia. Whole protestant religions have come out of there, including the founder of the Mennonites, who was executed for building a “New Jerusalem”, as the Druidic Culdee had handed down to them to do, even with the primitive Christian practices of keeping the dietary laws, feasts and Sabbaths. Modern day Mennonites are known for keeping both Saturday and Sunday as Holy days.

Frisians are the only tribe that retained their name even from the known listings of European tribes made by Tactius in 69AD. The Frisians were early empire-builders among the scattered tribes of the Dark Ages and by the sixth century were the most coherent and prosperous tribe among the Germanic people, controlling an area stretching from northern Jutland in Denmark to Flanders in Belgium. The Frisians dominated sea-going trade, ranging as far a field as the Baltics, Russia, Scandinavia, and England. Indeed, the North Sea was then known as Mare Frisicum.

Trade was mainly Frisian cloth, slaves, herring from the rich banks off the coast of Sweden, and timber from the Baltic region. While most of the rest of Europe was operating a barter system, the Frisian traders used a **Biblical silver currency**, called sceats. These were gained through interaction with Vikings and probably minted in England and Friesland as well.

Frisians in Bristol England and South Wales

BRISTOL, capital city of WESSEX/West Country; the kingdom of Wessex was created by the ENGLISH (Clan of ENGIST who gave his name to ENGISTLAND/ENGLAND, and to the ENGLISH in the 4th century (Albion had already been settled around 250 before Christ by the Frisians who had been flooded, hence the English still speaking Friesian_ both languages are similar ; ENGIST was king of BATAVIA (Holland), of FRISIA, and of West Germany (Koln area); he acquired Frisia by marrying the daughter of the King of the Slavs (Friesian Royal Descent); he married one of his daughters to Vortigern, King of Great Britain, and an other daughter (Enga) to ATTLA, King of the HUNS;Enga and Attila had a son : JENGHIZ, hence the name of Jenghiz PAATS; Engist was of a line of BATAVIAN Kings going back to pre Christian time; they were of the line of the King GOD WODEN (ODIN), a younger brother who married into the Scandinavian side of the family and ruled there; When CALIGULA invaded BATAVIA, he cancelled the KINGSHIP of the family, leaving to them their immemorial title of SEA KINGS (WASSENHERREN, later Barons of Paets Wassenaer etc...); the Roman side of the Family was then making grand progress on Land but could still not match the Sea Power of the family stem (Frisians, Phoenicians, Phillistines, Cretians, Greeks , later Vikings etc...) a daughter of Caligula was given in marriage to The Engist Line; it took untill the fourth century for this line to become Kings of Batavia again, this untill the arrival of Emperor CHARLES the GREAT,(circa 800);

from then on, the Paats descendants ruled as Counts of Holland, Dukes of Gelderland etc..., through the Dutch Coucil, as Regents of the East India Company, Regents of Rotterdam, or as vice-Kings under the name van't Velde under Emperor CHARLES V of Spain etc...

WODEN was the GOD/KING of RUSSIA, SCANDINAVIA and GERMANY; also known as PERTHUS, PERKUNS or PAETUS as GOD of the Slavs and the GERMANS; Woden belonged to the TROYAN royal family whose origins were in Frisia; this line had stayed in the South Ukraine area after the fall of TROY (WODEN/ODIN took his name from the river DON in Scythia) while Aeneas was to go and found the

future Rome; but when the Roman Empire expanded, the Woden line moved their seat back to the north of Europe; The TROYAN royal Family descended from the PATESI, KINGS/PRIESTS of SUMER/MESOPOTAMIA and of ENKI, GOD RULER of BAHRAIN; ENKI's Temple can still be found there, 6000 years later;

ENKI was descended from the PATSEIDANS founders and rulers of ATLANTIS and its Capital City PATSEIDONIA (probably located in the permanently flooded Friesland area, past the pillars of Hercules), and also builders of the walls of TROY;

according to the Ancient TESTAMENT which is one of the family history sort of account, NOAH's three sons were given :

PAETS/IAPAETUS : EUROPE and the NEAR EAST, which developped into the INDO EUROPEAN KINGDOMS, hence the traditional name of PATSEICS or JAPAETHICS for the Europeans;

SHEM was given ASIA (Semitic/Arabic people) and HAM Africa;

The English Kingdoms were created when King VORTIGERN of ALBION lost control of the Island under pressure from Scotts and early Vikings; the BRITUS branch of the Troyan Royal Family had arrived in Albion through Totnes/Devon and had created a base in Bristol;

Albion/Britain was later settled by the Troyan/Aeneas Troyan Royal branch (the Julio-Claudian Roman Emperors); vandsdyke, Patsway, Padstow (Cornwall) etc... are memories of those times;

This is the time when the Woden Branch of the Troyan Patseids took over smoothly from Rome by creating various European Kingdoms; the elder Aeneas Patseid Roman Emperors had run out of vacant lands to distribute to their mercenaries, so it seemed a more workable system to let junior Patseid princes to run most areas, under allegiance to the Emperor of Constantinople; the mutiny of the Bishop of Rome (forged document pretending a Donation of power by Emperor Constantin, backing Charles the Great without instruction etc...) was to create centuries of chaos untill hopefully the years 2000 when Indo_European orderly regroupement is going to be achieved; Bristol has probably the largest concentration of ATLANTES in the Western world; Cambridge University estimates that 2% of the UK population are Patseics; 100% of people of English descent carry the Frisian Male DNA;

Some famous people linked to Bristol England:

FLAVIUS JOSEPH, roman historian, alias CLODIUS PAETUS THRASEA, was the grandson of Emperor VESPASIAN, and as such a Troyan; he is credited for writing the new Testament referring to himself as GESSIUS/JESUS, son of GOD (meaning descendant of HORUS through some of his PHARAOS ancestors and King of the Jews, since the PAETUS were immemorial Kings of SYRIA. He included negative elements about the Jews, like killing him, since the Paetus Clan did not seem to appreciate the installation of the Hebrews on their personal land of Khanaan (Tsanaan/Paetstina/land of the Phillistines-Patseid sea faring people from Friesland) and were upset that they would not worship the deified Roman Emperors (they might worship the Emperors under the guise of the Jesus concept); Jesus' traditional logo bears the P and the cross, immemorial emblems of the Paetus;

KING ARTHUR:

King Arthur's ancestors came from south Ukraine where his Trojan forebears were based, in order to help the Roman Troyans to settle in Britain; after the Romans withdrew from Britain, King Arthur took arms against the other Trojan Engist, King of Batavia when this latter one came to Britain and created England;

many Patsaeid names are connected to this : Parcival etc...

KING HAROLD:

King Harold , son of the Earl Godwin of Wessex, and most other English counties, lost WESSEX and the English kingdom built around it, to William the Conqueror who was acting on behalf of the Vatican. The Vatican had renegated its allegiance to BYZANTIUM and was building up its own power base, forgetting the role of Bishops within a management structure (Rome) which had secured peace and prosperity for two millenia for the Indo Europeans; this Vatican move brought wars within the Indo Europeans for the next 1000 years;

ANTIPATER/ANTIPAETOS:

Regent of the Empire of Alexander the Great of Macedonia, and rumoured natural father of Alexander; after a phase of expansion, the Patseid kingdoms consolidated into a large Macedonian Empire, followed by another phase of expansion and consolidation : the Roman Empire;

These Atlantes/Troyans are also said to come from Planet NIBIRU, beeing then called ANNUNAKI, 450 000 years ago and settled here after some genetic manipulation; apparently, the Annunaki created a Royal Clan through mixing their genes with terrestrial people (with member doted of receding genes enabling them to adapt to various conditions), and did a second mix in order to create the rest of the modern population;

The Cross which is the emblem of the Paats/Patseids represent the path of the 12th planet crossing the path of the earth every 10000 years, which is when the Patseids are said to travel from one planet to the other; their emblem, the cross beeing a celebration of this event; the crescent, which is the emblem of the Paats-Wassenaar relates to the obedience of the Batavian royalty to the Byzantine Emperor after the demise of Rome, and establishes that the Vatican, Charlemagne etc were indeed vassals of the Emperor, and that Charlemagne's coronation by the Bishop/Pope of Rome had no legal base;

the 12th planet seems to be coming back to cross the path of earth at the moment, since its companion star, (planet X) is apparently causing the global warming we are observing;

portait of Prince CLAUDIUS CIVILIS by Rembrandt (Stockholm museum);

Claudius Civilis , descendant of Woden and ancestor of Engist, Patseid King de Batavia, was the leader of the Germanic Princes , he succeded throwing out thr Romans from Batavia (Holland); this branch is also descendants from Emperor Caligula;

The DNA of Rev Stephen Michael is from a haplogroup known as the most common Frisian haplogroup. He also has a high resolution DNA match also with the Wooton (Odin) Surname from the 10th century and the Smith family in the same regions of the ancestral confirmed hereditary lands of the (K)Notte family, proving these were all close relatives and the Frisian tribe and along with the rest of the documents at <http://houseofnott.co.cc> it proves this Frisians were and still are a major royal tribe.
